

### ACCU-CHEK® Guide Link

Blood Glucose Monitoring System

## ENGLISH Start Here

### Quick Start Guide

For in vitro diagnostic use only

For use with the MiniMed™ 770G and MiniMed™ 780G systems with Bluetooth® wireless technology

**Medtronic** 

**WARNING**

- Keep new and used batteries away from children. See the User's Manual for additional information.
- This Quick Start Guide does not replace the User's Manual for your Accu-Chek Guide Link blood glucose meter. The User's Manual contains important cleaning and disinfecting procedures and additional information.
- The meter and lancing device are for single patient use. Do not share them with anyone, including other family members! Do not use on multiple patients!
- All parts of the kit are considered biohazardous and can potentially transmit infectious diseases from bloodborne pathogens, even after you have performed cleaning and disinfecting.

**NOTE**

- Always have a spare set of batteries.
- Battery life may vary due to factors such as temperature and battery manufacturer.

**Meter Overview**

1 Display  
2 Back Button  
3 Up Arrow and Down Arrow Buttons  
4 Power/Set/OK Button  
5 Test Strip Slot with Light  
6 Battery Door  
7 Micro USB Port\*  
8 Test Strip Ejector

\*USB functionality is not available for this meter.

**Set the Meter Language**

1 Language: English, Български, Česky, Dansk

Turn the meter on by briefly pressing OK. Language appears. Press □ or ▢ to highlight the desired language.

**Pair the Meter and Insulin Pump**

1 Release button  
2 Lancet Drum = 6 Lancets  
3 Use By: 0000-00-00  
4 Lever to advance lancet

**Set up the Lancing Device**

1 Penetration depth  
2 Cap  
3 Number of lancets remaining  
4 Lever to advance lancet

**Perform a Blood Glucose Test**

1 Wash and dry your hands thoroughly before and after you perform a blood glucose test.  
2 Check the Use By date on the test strip container. Do not use test strips past the Use By date.  
3 Remove the cap by pulling it straight off. Do not twist the cap.  
4 Insert the metallic end of the test strip into the meter.  
5 The meter turns on. Preparing to test appears.  
6 Insert the lancet drum, white end first, into the lancing device. Place the cap back on the lancing device. Adjust the lancet depth to a comfortable penetration level. Touch the yellow edge of the test strip to the blood drop. Do not remove the lancet drum until all 6 lancets are used since the drum cannot be reused once it has been removed from the lancing device. Using the lancing device: By pressing the release button all the way down, the lancing device primes and pricks with 1 click. Press □ to automatically send result to a paired pump. If □ is not pressed, there will be a delay seeing the blood glucose result on the paired pump.  
7 Before you finish... Press the lever over and back once to advance to the next lancet. The window shows the number of lancets remaining.

**WARNING**

You must not insert the lancet drum into the lancing device and simultaneously press the release button or hold the lancing device with the release button resting on a surface such as a table top. This could release a lancet and inadvertently cause injury.

**NOTE**

Each lancet drum contains 6 sterile lancets. You can perform 6 tests before replacing it.

**NOTE**

The Accu-Chek Guide Link meter can automatically send blood glucose results to the MiniMed™ 770G and MiniMed™ 780G systems with Bluetooth® wireless technology. This feature eliminates the need to manually enter your blood glucose result on the insulin pump. Refer to the MiniMed™ 770G and MiniMed™ 780G systems User Guide for pairing instructions.

**ACCU-CHEK® Guide Link**  
Sistema de monitorización de glucemia

**ESPAÑOL**  
**Empiece aquí**

**Guía rápida de instrucciones**  
Sólo para diagnóstico in vitro

Para el uso con los sistemas MiniMed™ 770G y MiniMed™ 780G con tecnología inalámbrica Bluetooth®

**NOTA**  
• Tenga siempre a mano un juego de pilas de reserva.  
• La duración de la pila puede variar a causa de distintos factores, tales como la temperatura y el fabricante de la pila.

**Medtronic** 

### ADVERTENCIA

Mantenga las pilas nuevas y usadas fuera del alcance de los niños. Consulte las instrucciones de uso para obtener información adicional.

- Esta guía rápida de instrucciones no reemplaza a las instrucciones de uso del medidor de glucemia Accu-Chek Guide Link. Las instrucciones de uso contienen instrucciones importantes de limpieza y desinfección así como información adicional.
- El medidor y el dispositivo de punción están previstos únicamente para uso de un paciente individual. ¡No los comparta con nadie, ni siquiera con miembros de su familia! ¡No usar en varios pacientes!
- Todas las piezas del kit representan un peligro biológico y pueden transmitir enfermedades infecciosas a causa de patógenos nacidos de la sangre, incluso después de limpiarlas y desinfectarlas.

**NOTA**  
• Inserte el dispositivo de punción en el dispositivo de punción para la siguiente medición. Para avanzar hasta la siguiente lanceta, deslice la palanca hacia delante y hacia atrás una vez. La ventana muestra el número de lancetas restantes.

### Vista general del medidor

1 Pantalla  
2 Botón Atrás  
3 Botones flecha arriba y flecha abajo  
4 Botón Power/Set/OK  
5 Ranura de la tira reactiva con luz  
6 Tapa del compartimento de las pilas  
7 Puerto micro USB\*  
8 Eyector de tiras reactivas

\*La funcionalidad USB no está disponible para este medidor.

### Ajustar el idioma del medidor
